

5 Proven Tips to Extend Your Carpet's Life

1

Preventive Maintenance

Dirt is everywhere. Keeping it out of buildings is easier and less expensive than removing it.

2

Vacuuming

Regular vacuuming is the most important part of any maintenance program.

3

Spot Removal

Spots are inevitable, but they don't have to be permanent. Remove a spill quickly and there is less chance it will become a stain.

4

Interim Cleaning

Scheduled pile lifting, vacuuming, spot removal and low moisture cleaning can help the carpet retain appearance and improve performance.

5

Restorative Deep Cleaning

No matter how conscientiously you work at it, regularly scheduled maintenance will still leave some soil behind. Periodic deep cleaning, using hot water extraction, is most effective at removing any embedded abrasive soil.

A Well Planned Carpet Maintenance Program Can Benefit Your Business

Tired of Ugly Carpets? So Are We!

For years it was expected that commercial carpets would eventually “ugly out” and go to an early grave. *Not any longer!*

J. Brightwell Carpet Cleaning utilizes innovative cleaning technologies to help your carpet stay clean longer. Your carpet will continue to look good day-in and day-out.

Clean Carpets Pay for Themselves!

A five-year-old carpet that has been cleaned on a regular basis will maintain a 92% appearance rating. Whereas a five-year-old carpet that has been neglected can degrade to a 50% appearance rating (according to Allied Fibers).
